The largest tickets' capacity in the smartest size

Dreamtouch Smart is the first instant ticket vending machine for purchasing unlimited draw based games, terminal instants and up to 25 instant scratch tickets at the height of just 54". It allows maximum visibility of in-store shoppers and aims to attract lottery players when on a regular shopping trip to retail stores, buliding on impulse buy occasion. This intelligent vending machine accommodates the trend of increasingly open floor plans within retail outlets and big stores.

Dreamtouch Smart is ideal for hypermarkets, supercenters and grocery stores, as due to its compact size it allows customers to have a greater visibility across the front end of supercenter stores and checkout areas.
