1. GENERAL INFORMATION

INTRALOT S.A. – “Integrated Lottery Systems and Gaming Services”, with the distinct title «INTRALOT» is a business entity that was established based on the Laws of Hellenic Republic, whose shares are traded in the Athens Stock Exchange. Reference to «INTRALOT» or the «Company» includes INTRALOT S.A. whereas reference to the «Group» includes INTRALOT S.A. and its fully consolidated subsidiaries, unless otherwise stated. The Company was established in 1992 and has its registered office in Maroussi of Attica.

INTRALOT, a public listed company, is the leading supplier of integrated gaming and transaction processing systems, innovative game content, sports betting management and interactive gaming services to state-licensed gaming organizations worldwide. Its broad portfolio of products & services, its know-how of Lottery, Betting, Racing & Video Lottery operations and its leading-edge technology, give INTRALOT a competitive advantage, which contributes directly to customers’ efficiency, profitability and growth. With presence in 41 countries and states, with approximately 2.000 employees and revenues from continuing operations of €365 million for 2020, INTRALOT has established its presence on all 5 major continents.

The interim financial statements of the Group and the Company for the period ended March 31, 2021 were approved by the Board of Directors on June 8, 2021.

2. NOTES TO THE INTERIM FINANCIAL STATEMENTS

2.1.1 Basis of preparation of the Financial Statements

The attached financial statements have been prepared on the historical cost basis, except for the financial assets measured at fair value through other comprehensive income and the derivative financial instruments that are measured at fair value, or at cost if the difference is not a significant amount, and on condition that the Company and the Group would continue as a going concern, as described below. The attached financial statements are presented in Euros and all values are rounded to the nearest thousand (€000) except if indicated otherwise.

Going concern

The Group maintains sufficient liquidity so as to cover its relative cash needs in the near future.

The continuous efforts of the Management for further sales increase and operating costs reduction through restructuring and development of synergies, as well as for improvement of the efficiency and productivity will contribute to the further strengthening of the capital structure and efficiency of the Company and the Group.

However, given the imminent obligation to repay Facility A (“Notes 2021”) (note [2.17](#)), meeting the cash needs for the repayment of these debt obligations of the Group may require the adoption of complex financial options. Their successful adoption will remove the existence of material uncertainty about the possibility of smooth going concern of the Company and the Group, which is exclusively refers to the debt refinancing process.

In this context, the Group Management has prepared a detailed plan of Expected Cash Flows for a period of 24 months since the 2020 annual financial statements reporting date.

It should be noted that recent developments regarding the spread of the COVID-19 pandemic and the restrictions and bans imposed, affected adversely the results of 2020. The beginning of 2021 was overshadowed by restrictions imposed in most of the regions across the world to combat the spread of COVID-19. However, as vaccinations are progressing, governments are starting to loosen COVID-19 measures after months of lockdowns and reopen economic activities. The potential magnitude of COVID-19 for 2021 is continuously assessed and all containment measures assumed in 2020 remain intact and have been enhanced in order to absorb the potential impact in the financial results of 2021. All actions undertaken are designed to counter any drop in business but without affecting

our operations and our commitment to deliver state of the art technology to our customers. Based on the current performance of our operations in the first months of 2021 and the actions undertaken by most of our subsidiaries, the Group's pandemic impact for 2021 is not expected to be significant in EBITDA terms. All the above were taken into account when preparing plan for Expected Cash Flows.

From the review of this plan, the Management of the Group, has concluded that no additional funds are required and there are no cash needs that cannot be met with the current conditions and the major issue remains the settlement of the repayment of Facility A.

In this respect, INTRALOT has already since January 2021 entered into a Lock-Up Agreement (the Lock-Up Agreement) with an ad hoc group of noteholders, holding in excess of 75% of outstanding principal amount of the €250m Senior Unsecured Notes due 2021 (2021 Notes). The Lock-Up Agreement provides either for the consensual exchange of 2021 Notes with new notes of a total principal amount of €205m, due 2025, to be issued by the Group subsidiary Intralot Inc., if noteholders holding at least 90% in outstanding principal amount of the 2021 Notes would sign or accede to the Lock-Up Agreement, or the recourse to an English law scheme of arrangement, with the consent of the Ad Hoc Group. Following the Expiration Time set in the Lock-Up Agreement, Noteholders holding 82,76% of the outstanding principal amount of the 2021 Notes. The Company believes that this outcome is an important step towards the implementation of the proposed transaction. On the basis of the current high level of support of the Lock-Up Agreement by the holders of the 2021 Notes, the Company is convinced that it may implement the exchange of the 2021 Notes by a consensual process. According to the above, it has entered during the last months into negotiations with the Ad Hoc Group with the aim of reaching an alternative agreement that will allow the parties to restructure the 2021 Notes without recourse to a scheme of arrangement. Such negotiations are already at an advanced stage and the Company believes that it will be able to make a new announcement on the matter soon.

In any case, the scheme of arrangement remains as an additional possible route. The English law scheme of arrangement is a procedure provided by the Companies Act 2006, that allows a company to come into an arrangement with its creditors (or a class of creditors) with the aim of restructuring its debt or part thereof, and reorganizing the entity. The consent of creditors holding at least 75% of the debt of a company is sufficient for a scheme to be implemented and the relevant agreement needs to be sanctioned by the competent court.

In parallel, the Company will also offer the exchange of its €500m Senior Unsecured Notes due 2024 (Facility B "the 2024 Notes") against a percentage of up to 49% of the share capital of a company (TopCo) that hold, indirectly, 100% of the shares of the Group's USA subsidiary Intralot Inc. To be noted that the members of the Ad Hoc Group also hold in excess of 13% of the principal amount of the 2024 Notes and, by virtue of a Backstop Commitment Letter they have signed again in January 2021, they have guaranteed that they will participate in the above exchange of the 2024 Notes by offering Notes of a principal amount of at least €68m, against 18,7% of the share capital of TopCo.

To be noted that the Lock-Up Agreement and the Backstop Commitment Letter constitute an important milestone in the Group's effort to implement the specific transactions that will lower the leverage on the balance sheet, extend the maturity of the notes and improve its cash flows.

This will allow the Group to implement its business plan and take advantage of new appealing business opportunities, both in the Lottery as well as in the Sports Betting markets.

In view of the above, the Company proceeds to the necessary actions for the implementation of the proposed restructuring of the 2021 and 2024 Notes, while it remains available for discussions with other noteholders.

The Company will provide an update about its next steps in the near future.

In conclusion, the Management, taking into account the Plan of Expected Cash Flows and all available information on the foreseeable future, as well as the strategic alternatives that is working on for optimizing the Group's capital structure and deleveraging, estimates that the Group has ensured its going concern.

In view of the above, the Financial Statements of the Group were prepared on the basis of the going concern principle of continuing concern (going concern), as the Management estimates that the above actions will allow the Group to continue its operation smoothly.

2.1.2 Statement of compliance

These financial statements for the period ended March 31, 2021 have been prepared in accordance with IAS 34 "Interim Financial Reporting". Those interim condensed financial statements do not include all the information and disclosures required by IFRS in the annual financial statements and should be read in conjunction with the Group's and Company's annual financial statements as at [December 31, 2020](#).

2.1.3 Financial Statements

INTRALOT keeps its accounting books and records and prepares its financial statements in accordance with the International Financial Reporting Standards (IFRS) Law 4308/2014 chap. 2, 3 & 4 and current tax regulations and issues its financial statements in accordance with the International Financial Reporting Standards (IFRS).

INTRALOT's Greek subsidiaries keep their accounting books and records and prepare their financial statements in accordance with GAS (L.4308/2014), the International Financial Reporting Standards (IFRS) and current tax regulations. INTRALOT's foreign subsidiaries keep their accounting books and records and prepare their financial statements in accordance with the applicable laws and regulations in their respective countries. For the purpose of the consolidated financial statements, Group entities' financial statements are adjusted and prepared in relation to the requirements of the International Financial Reporting Standards (IFRS).

2.1.4 Changes in accounting policies

For the preparation of the financial statements of period ended March 31, 2021, the accounting policies adopted are consistent with those followed in the preparation of the most recent annual financial statements ([December 31, 2020](#)), except for the below mentioned adoption of new standards and interpretations applicable for fiscal periods beginning at January 1, 2021.

Standards and Interpretations compulsory for the fiscal year 2021

New standards, amendments of published standards and interpretations mandatory for accounting periods beginning on 1st January 2021. The Group's assessment of the impact of these new and amended standards and interpretations is set out below.

IFRS 16 "Leases" (Amendment) "COVID-19-Related Rent Concessions"

The amendment is effective for annual reporting periods beginning on or after 1 April 2021.

In March 2021 the IASB extended by one year the application period of the practical expedient in IFRS 16 "Leases" to help lessees accounting for COVID-19-related rent concessions that reduce only lease payments due on or before 30 June 2022.

The Group will assess the impact of the amendment on its financial statements. These amendments have not yet been endorsed by the European Union.

Amendments to IFRS due to IBOR reform – Phase 2

(COMMISSION REGULATION (EU) No. 2021/25 of 13th January 2021, L 11/7 - 14/1/2021)

These apply to annual accounting periods starting on or after 1st January 2021. Earlier application is permitted. In August 2020, the IASB issued amendments to several IFRS Standards (IFRS 9 “Financial Instruments”, IAS 39 “Financial Instruments: Recognition and Measurement”, IFRS 7 “Financial Instruments: Disclosures”, IFRS 4 “Insurance Contracts” and IFRS 16 “Leases”). The package amendments complement those issued in 2019 and focus on the effects on financial statements when a company replaces the old interest rate benchmark with an alternative benchmark rate as a result of the reform of inter-bank offered rates (IBOR).

The amendments in this final phase relate to:

- changes to contractual cash flows: a company will not have to derecognize or adjust the carrying amount of financial instruments for changes required by the reform, but will instead update the effective interest rate to reflect the change to the alternative benchmark rate,
- hedge accounting: a company will not have to discontinue its hedge accounting solely because it makes changes required by the reform, if the hedge meets other hedge accounting criteria, and
- disclosures: a company will be required to disclose information about new risks arising from the reform and how it manages the transition to alternative benchmark rates.

These amendments do not significantly affect the Group's financial statements.

Standards and Interpretations compulsory after 31 December 2021

The following new standards, amendments and IFRICs have been published but are in effect for the annual fiscal period beginning the 1st of January 2022 and have not been adopted from the Group earlier.

IFRS 17 “Insurance Contracts”

This applies to annual accounting periods starting on or after 1st January 2023. Earlier application is permitted. In May 2017, the IASB issued a new accounting Standard, called IFRS 17 “Insurance Contracts” that replaces IFRS 4 “Insurance Contracts”, which was brought in as an interim Standard in 2004. IFRS 4 has given companies dispensation to carry on accounting for insurance contracts using national accounting standards, resulting in a multitude of different approaches. Consequently, it is difficult for investors to compare and contrast the financial performance of otherwise similar companies. IFRS 17 solves the comparison problems created by IFRS 4 by requiring all insurance contracts to be accounted for in a consistent manner, benefiting both investors and insurance companies. Insurance obligations will be accounted for using current values, instead of historical cost. The information will be updated regularly, providing more useful information to users of financial statements. This new standard does not affect Group financial statements and has not yet been endorsed by the European Union.

IFRS 4 “Insurance Contracts” (Amendment) – deferral of IFRS 9

(COMMISSION REGULATION (EU) No. 2020/2097 of 15th December 2020, L 425/10 - 16/12/2020)

In June 2020, the IASB amended IFRS 4 “Insurance Contracts”. This amendment postponed the date of application of IFRS 4 by two years, to annual reporting periods beginning on or after 1 January 2023, in order to allow time for the smooth adoption of IFRS 17 by jurisdictions worldwide. This will allow more insurers to apply the new Standard at the same time. In addition, IFRS 4 has been amended so that insurance entities can apply IFRS 9 “Financial Instruments” in parallel with IFRS 17.

This amendment does not affect Group financial statements.

IAS 1 “Presentation of Financial Statements” (Amendment) - “Classification of Liabilities as Current or Non-current”

This applies to annual accounting periods starting on or after 1st January 2023. Earlier application is permitted. In January 2020 the IASB issued amendment to IAS 1 “Presentation of Financial Statements” that affect requirements for the presentation of liabilities. Specifically, they clarify one of the criteria for classifying a liability as non-current, the requirement for an entity to have the right to defer settlement of the liability for at least 12 months after the reporting period. The amendments include: (a) specifying that an entity’s right to defer settlement must exist at the end of the reporting period; (b) clarifying that classification is unaffected by management’s intentions or expectations about whether the entity will exercise its right to defer settlement; (c) clarifying how lending conditions affect classification; and (d) clarifying requirements for classifying liabilities an entity will or may settle by issuing its own equity instruments.

The Group will assess the impact of the amendment on its financial statements. These amendments have not yet been endorsed by the European Union.

IAS 1 “Presentation of Financial Statements” (Amendment) - “Accounting policy disclosures”

This applies to annual accounting periods starting on or after 1st January 2023. Earlier application is permitted. In February 2021 the IASB issued amendments to IAS 1 “Presentation of Financial Statements” and IFRS Practice Statement 2 “Making Materiality Judgements”. The amendments to IAS 1 require companies to disclose their material accounting policy information rather than their significant accounting policies. The amendments to IFRS Practice Statement 2 provide guidance on how to apply the concept of materiality to accounting policy disclosures. The Group will assess the impact of the amendment on its financial statements. These amendments have not yet been endorsed by the European Union.

IAS 8 “Accounting Policies, Changes in Accounting Estimates and Errors” (Amendment) - “Definition of accounting estimates”

This applies to annual accounting periods starting on or after 1st January 2023. Earlier application is permitted. In February 2021 the IASB issued amendments to IAS 8 “Accounting Policies, Changes in Accounting Estimates and Errors”. The amendments to IAS 8 clarify how companies should distinguish changes in accounting policies from changes in accounting estimates. That distinction is important because changes in accounting estimates are applied prospectively only to future transactions and other future events, but changes in accounting policies are generally also applied retrospectively to past transactions and other past events.

The Group will assess the impact of the amendment on its financial statements. These amendments have not yet been endorsed by the European Union.

Several Narrow-scope Amendments to IFRS

These apply to annual accounting periods starting on or after 1st January 2022.

In May 2020, the IASB issued several narrow-scope amendments to IFRS Standards. The package of amendments includes narrow-scope amendments to three Standards as well as the Board’s Annual Improvements, which are changes that clarify the wording or correct minor consequences, oversights or conflicts between requirements in the Standards.

Amendments to IFRS 3 “Business Combinations” update a reference in IFRS 3 to the Conceptual Framework for Financial Reporting without changing the accounting requirements for business combinations.

Amendments to IAS 16 "Property, Plant and Equipment" prohibit a company from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, a company will recognize such sales proceeds and related cost in profit or loss.

Amendments to IAS 37 "Provisions, Contingent Liabilities and Contingent Assets" specify which costs a company includes when assessing whether a contract will be loss-making.

Annual Improvements make minor amendments to IFRS 1 "First-time Adoption of International Financial Reporting Standards", IFRS 9 "Financial Instruments", IAS 41 "Agriculture" and the Illustrative Examples accompanying IFRS 16 "Leases".

The Group will assess the impact of these amendments on its financial statements. These amendments have not yet been endorsed by the European Union.

2.1.5 EBITDA & EBIT

International Financial Reporting Standards (IFRS) do not define the content of the "EBITDA" & "EBIT". The Group taking into account the nature of its activities, defines "EBITDA" as "Profit/(Loss) before tax" adjusted for the figures "Profit/(loss) from equity method consolidations", "Profit/(loss) on net monetary position", "Exchange Differences", "Interest and similar income", "Interest and similar expenses", "Income/(expenses) from participations and investments", "Write-off and impairment loss of assets", "Gain/(loss) from assets disposal", "Reorganization costs" and "Assets depreciation and amortization". Also, the Group defines "EBIT" as "Profit/(Loss) before tax" adjusted for the figures "Profit/(loss) from equity method consolidations", "Profit/(loss) on net monetary position", "Exchange Differences", "Interest and similar income", "Interest and similar expenses", "Income/(expenses) from participations and investments", "Write-off and impairment loss of assets" and "Gain/(loss) from assets disposal".

Project EBITDA of the Company

For the calculation of the project EBITDA of the Company, the direct costs of the projects are allocated directly to the projects for which they are carried out. Payroll costs related to the Company's production segments are recorded in "Cost of Sales" and are allocated to projects based on man effort at Company level. "Distribution Expenses" and "Administration Expenses" are monitored per project and allocated to them based on man effort at Company level. "Research and Development Expenses" are allocated to the projects in proportion to the revenues of each project in the total revenue of the Company. Furthermore, for the calculation of the Company's "Gross" results per project, the relevant depreciation of tangible and intangible assets is accounted and the allocated operating "Distribution", "Administration" and "Research and Development" expenses are deducted. In cases where the hours of work are redistributed from one project to another then the costs of disposal, administration and research and development are calculated accordingly.

2.1.6 Significant accounting judgments estimates and assumptions

The preparation of the consolidated financial statements requires management to make judgements, estimates and assumptions that affect the amounts of revenues, expenses, assets liabilities and disclosures of contingent liabilities that included in the financial statements. On an ongoing basis, management evaluates its judgements, estimates and assumptions that mainly refer to goodwill impairment, allowance for doubtful receivables – expected credit losses, provision for staff retirement indemnities, provision for impairment of inventories value, impairment of tangible and intangible assets as well as estimation of their useful lives, recognition of revenue and expenses, pending legal cases, provision for income tax and recoverability of deferred tax assets. These judgements, estimates and assumptions are based on historical experience and other factors including expectations of future events that are considered reasonable under the circumstances.

The key judgements, estimates and assumptions concerning the future and other key sources of uncertainty at the reporting date of the interim condensed financial statements for the period ended on March 31, 2021 and have a significant risk of causing material adjustment to the carrying amounts of assets and liabilities within the next financial year, are consistent with those applied and were valid at the reporting date of the annual financial statements [December 31, 2020](#).

As a result of the effects of the spread of the COVID-19 pandemic, the Group Management reviewed estimates of future cash flows that were used to estimate the recoverable amount of its investments and tangible/intangible assets. This review did not show any impairment during the first quarter of 2021.

More specifically, the Management of the Group evaluates the going concern assumption based on the approved business plans that cover a period of five years. Following this, it prepares Expected Cash Flows that cover a period of at least 12 months since the financial statements reporting date.

In the present fiscal year, given the COVID-19 pandemic and the imminent obligation to repay the Facility A (note [2.17](#)), the Management of the Group has extended the evaluation period of going concern in order to cover a period of 24 months since the financial statements reporting date.

The estimates and assumptions used to prepare the business plans and Expected Cash Flows are based on historical data as well as on various factors that are considered reasonable given the circumstances, and are reconsidered taking into account current and expected future market conditions. The preparation of business plans also includes long-term assumptions for important economic factors that involve a significant use of Management judgement.

2.1.7 Seasonality and cyclicity of operations

The Group revenue can fluctuate due to seasonality in some components of the worldwide operations. In particular, the majority of the Group sports betting revenue is generated from bets placed on European football, which has an off-season in the European summer that typically causes a corresponding periodic decrease in the Group revenue. In addition, Group revenue from lotteries can be somewhat dependent on the size of jackpots of lottery games during the relevant period. The Group revenue may also be affected by the scheduling of major football events that do not occur annually, notably the FIFA World Cup and UEFA European Championships, and by the performance of certain teams within specific tournaments, particularly where the national football teams, in the markets where the Group earns the majority of its revenue, fail to qualify for the World Cup. Furthermore, the cancellation or curtailment of significant sporting events, for example due to adverse weather, traffic or transport disruption or civil disturbances, may also affect Group revenue. This information is provided to allow for a better understanding of the revenue, however, Group management has concluded that this is not “highly seasonal” in accordance with IAS 34.

2.2 INFORMATION PER SEGMENT

Intralot Group manages in 41 countries and states an expanded portfolio of contracts and gaming licenses. The grouping of the Group companies is based on the geographical location in which they are established. The financial results of the Group are presented in the following operating geographic segments based on the geographic location of the Group companies:

European Union:	Greece, Malta, Cyprus, Poland, Luxembourg, Spain, Nederland, Romania, Bulgaria, Germany, Croatia and Republic of Ireland.
Other Europe:	United Kingdom, Russia (until 2020) and Moldova.
America:	USA, Peru, Brazil, Argentina, Mexico, Jamaica, Chile and Colombia.
Other Countries:	Australia, New Zealand, China, South Africa, Turkey, Taiwan and Morocco.

No operating segments have been added.

The following information is based on the internal financial reports provided to the manager responsible for taking decisions who is the CEO. The performance of the segments is evaluated based on the sales and profit/(loss) before tax. The Group applies the same accounting policies for the financial results of the above segments as those of the consolidated financial statements. The transactions between segments are realized within the natural conditions present in the Group with similar way to that with third parties. The intragroup transactions are eliminated in group level and are included in the column “Eliminations”.

Goodwill and Intangible assets with indefinite useful life impairment test

Management tests goodwill for impairment annually (December 31) or more frequently if events occur or changes in conditions indicate that the carrying value may have been reduced in accordance with accounting practice described in note 2.1.6 «Business Combination and Goodwill» of the annual Financial Statements of [December 31, 2020](#).

The Group proceeded with a goodwill impairment test on 31/12/2020 and the basic assumptions used to determine the recoverable amount are described below. The test on 31/12/2020 did not conclude to goodwill impairment.

The recoverable amounts of cash generating units have been determined based on value in use calculations using appropriate estimates regarding future cash flows and discount rates.

Specifically, goodwill arising on consolidation of acquired subsidiaries and intangible assets with indefinite useful life are allocated to the following cash generating units (CGU) by geographical area. Goodwill impairment testing is performed on subsidiary level.

Carrying amount:

CGU	Goodwill		Intangible assets with indefinite useful life	
	31/3/2021 ¹	31/12/2020	31/3/2021	31/12/2020
European Union	0	0	0	0
America	327	344	27	25
Other countries	4.346	4.637	0	0
Total	4.673	4.981	27	25

¹ Net decrease in goodwill during the three months of 2021 by €308 thousand is caused by the foreign currency translation losses from goodwill valuations related to foreign subsidiaries acquisitions, made by the Group in past periods, with functional currency other than Euro.

Key assumptions:

The recoverable amount of each CGU is determined according to the calculations of value in use. The determination is obtained by the present value of estimated future cash flows expected to be generated by each CGU (discounted cash flow method - DCF). The cash flows are derived from the most recent approved by the management budgets for the next three years and do not include estimated future cash inflows or outflows expected to arise from future restructurings or from improving or enhancing the asset's performance which is tested for impairment. The expected cash flow projections beyond the period covered by the most recent budgets is estimated by extrapolating the projections based on the budgets, using a steady or declining growth rate for subsequent years, which does not exceed the long-term average growth rate for products, industries, countries in which the Group operates, or for the market in which the asset is used. The Group makes estimates beyond the period of three years where it has signed revenue contracts beyond three years as well as in cases where management believes that based on market data and renewals track record of the Group, the renewal of the relevant contracts beyond the three year period is very possible. Cash flow projections are based on reasonable and supportable assumptions that represent management's best estimate of the range of economic conditions that will exist over the remaining useful life of the asset, giving greater weight to external evidence. Management assesses the reasonableness of the assumptions underlying the current cash flow projections by examining the causes of differences between past cash flow projections and actual cash flows. Management also ensures that the assumptions on which its current cash flow projections are based are consistent with past actual outcomes, provided that subsequent events or circumstances that did not exist when those actual cash flows were generated make this appropriate.

The value in use for CGUs affected (has sensitivity) of the following key factors (assumptions):

- Sales
- Growth rate in perpetuity (Perpetual Growth Rates), and
- Discount rates

Sales:

Sales projections are derived from estimates of local management of various subsidiaries. These projections are based on careful assessments of various factors, such as past performance, estimates of growth of the local market, competition - if exists, possible changes in the institutional framework governing the gambling market, the economic situation of the gambling industry and the market in general, new opportunities such as lotteries privatizations, etc.

Sales growth rate:

CGU	2020	2019
European Union	n/a	n/a
Other Europe	n/a	n/a
America	20,0% - 68,1%	20,0% - 36,8%
Other countries	11,0% - 63,3%	20,2% - 27,8%

Growth rate in perpetuity

The factors taken into account for the calculation of the growth rate in perpetuity derive from external sources and include among others, the level of maturity of each market, the existence of barriers to entry for competitors, the economic situation of the market, existing competition and technology trends.

Growth rate in perpetuity:

CGU	2020	2019
European Union	n/a	n/a
Other Europe	n/a	n/a
America	10,0%	10,0%
Other countries	11,0%	11,0%

Discount rates:

The discount rates represent the current market assessments of the risks personalized for each CGU, having made the necessary adjustments for the time value of money and possible risks specific to any assets that have not been included in the cash flow projections. The calculation of discount rates based on specific conditions under which the Group and its operating segments operate and calculated through the weighted average cost of capital method (WACC). The WACC takes into account both debt and equity. The cost of equity derives from the expected return that Group investors have for their investment. The Cost of debt is based on the interest rate of the loans that the Group must facilitate. The specific risk of each country is incorporated by implementing individualized sensitivity factors «beta» (beta factors). The sensitivity factors «beta» are evaluated annually based on published market data.

Discount rates:

CGU	2020	2019
European Union	n/a	n/a
Other Europe	n/a	n/a
America	37,8%	41,8%
Other countries	21,6%	19,3%

Recoverable amount sensitivity analysis:

On 31/12/2020, the Group analyzed the sensitivity of the recoverable amounts in a reasonable and possible change of some of the basic assumptions (such as the change of a (1,0) of a percentage point to the growth rate in perpetuity and the change of the discount rates of a (1,0) percentage point). This

analysis does not show a situation in which the carrying amount of the Group's significant CGUs exceeds their recoverable amount.

Reserves

Foreign exchange differences reserve

This reserve is used to report the exchange differences arising from the translation of foreign subsidiaries' financial statements. The balance of this reserve in the Group on 31/3/2021 was €-94,2 million (31/12/2020: €-100,9 million). The Group had a total net gain which was reported in the statement of comprehensive income from the change in the fair value reserve during 2021 amounting to €7,0 million, out of which gain of €7,4 million is attributable to the owners of the parent and a loss of €0,4 million to non-controlling interest. The above total net gain for 2021 comes mainly from the positive fluctuation of USD and AUD against the EUR.

During the first three months of 2021, an accumulated gain of €0,2 million was reclassified/recycled in the income statement (line "Foreign Exchange Differences and "Profit / (loss) after tax from discontinued operations") from the reserve of foreign exchange differences due to the liquidation of subsidiaries and associates.

- Facility A: In September 2016, Intralot Capital Luxembourg, issued Senior Notes with a nominal value of €250 million, guaranteed by the parent company and subsidiaries of the Group, due 15 September 2021. The Notes were offered at an issue price of 100,000%. Interest is payable semi-

annually at an annual fixed nominal coupon of 6,75%. The Notes are trading on the Luxembourg Stock Exchanges Euro MTF Market. The Notes bear the Group financial covenants for incurring additional debt with respect to total Net Debt (senior) to EBITDA (EBITDA/ "Consolidated Cash Flow") (Senior Leverage ratio <3,75), and financial expenses coverage ratio (Fixed Charge Coverage ratio >2,00). On 15/9/2020 this Facility was reclassified from long-term to short-term in accordance with IAS 1.

- Facility B: In September 2017, Intralot Capital Luxembourg issued Senior Notes with a nominal value of €500,0 million, guaranteed by the parent company and subsidiaries of the Group, due 15 September 2024. The Notes were offered at an issue price of 100,000%. Interest is payable semi-annually at an annual fixed nominal coupon of 5,25%. The Notes are trading on the Luxembourg Stock Exchanges Euro MTF Market. The Notes bear the Group financial covenants for incurring additional debt with respect to total Net Debt (senior) to EBITDA (EBITDA/ "Consolidated Cash Flow") (Senior Leverage ratio <3,75), and financial expenses coverage ratio (Fixed Charge Coverage ratio >2,00). The Group proceeded to the repurchase of bonds from the open market with nominal value of €5,0 million during 2018, as well as €21,2 million during the second half of 2019, forming the total outstanding nominal amount at €473,8 million.

The Group under the Senior Notes (Facility A & B) terms will be able to incur additional debt so long as on a pro forma basis its consolidated fixed charge coverage ratio is at least 2,00 (31/3/2021: approx. 1,73), and will be able to incur additional senior debt as long as on a pro forma basis its total Net Debt (senior) to EBITDA consolidated (Senior leverage ratio) is not more than 3,75 (31/3/2021: approx. 8,39). Furthermore to the above, the Group can incur additional debt from specific baskets.

The Company, the subsidiaries of the Group or other related parties, or agents on its or their behalf, may from time to time purchase and/or re-sell bonds of the Group (Facility A & B) in one or more series of open-market transactions from time to time. The Group does not intend to disclose the extent of any such purchase or re-sale otherwise than in accordance with any legal or regulatory obligation the Group may have to do so.

Other facilities:

- Facility C: In February and March 2020 Intralot Global Holdings BV signed a loan agreement, with relevant securities on financial assets, amounting up to €18 million as a revolving facility and issuing bank letters of guarantee. Loan agreement bears a floating reference rate (relevant bank's cost of funding cost) plus a 1,65% margin. The above revolving facility has been fully paid as at 31/3/2021 and the used letters of guarantee amounted to €10,3 million.

CAPITAL MANAGEMENT

The Group aims through the management of capital to ensure that the Group can operate smoothly in the future, maximize the value of its shareholders and maintain the appropriate capital structure in terms of costs of capital. The Group monitors its capital adequacy on a Net Debt to EBITDA ratio basis. Net borrowings include borrowing and lease liabilities minus cash and cash equivalents.

¹ EBITDA refers to the period of the last twelve months ended on 31/3/2021.

Regarding capital structure, INTRALOT has already since January 2021 entered into a Lock-Up Agreement (the Lock-Up Agreement) with an ad hoc group of noteholders, holding in excess of 75% of outstanding principal amount of the €250m Senior Unsecured Notes due 2021 (2021 Notes). The Lock-Up Agreement provides either for the consensual exchange of 2021 Notes with new notes of a total principal amount of €205m, due 2025, to be issued by the Group subsidiary Intralot Inc., if noteholders holding at least 90% in outstanding principal amount of the 2021 Notes would sign or accede to the Lock-Up Agreement, or the recourse to an English law scheme of arrangement, with the consent of the Ad Hoc Group. Following the Expiration Time set in the Lock-Up Agreement, Noteholders holding 82,76% of the outstanding principal amount of the 2021 Notes. The Company believes that this outcome is an important step towards the implementation of the proposed transaction. On the basis of the current high level of support of the Lock-Up Agreement by the holders of the 2021 Notes, the Company is convinced that it

may implement the exchange of the 2021 Notes by a consensual process. According to the above, it has entered during the last months into negotiations with the Ad Hoc Group with the aim of reaching an alternative agreement that will allow the parties to restructure the 2021 Notes without recourse to a scheme of arrangement. Such negotiations are already at an advanced stage and the Company believes that it will be able to make a new announcement on the matter soon.

In any case, the scheme of arrangement remains as an additional possible route. The English law scheme of arrangement is a procedure provided by the Companies Act 2006, that allows a company to come into an arrangement with its creditors (or a class of creditors) with the aim of restructuring its debt or part thereof, and reorganizing the entity. The consent of creditors holding at least 75% of the debt of a company is sufficient for a scheme to be implemented and the relevant agreement needs to be sanctioned by the competent court.

In parallel, the Company will also offer the exchange of its €500m Senior Unsecured Notes due 2024 (the 2024 Notes) against a percentage of up to 49% of the share capital of a company (TopCo) that hold, indirectly, 100% of the shares of the Group's USA subsidiary Intralot Inc. To be noted that the members of the Ad Hoc Group also hold in excess of 13% of the principal amount of the 2024 Notes and, by virtue of a Backstop Commitment Letter they have signed again in January 2021, they have guaranteed that they will participate in the above exchange of the 2024 Notes by offering Notes of a principal amount of at least €68m, against 18,7% of the share capital of TopCo.

To be noted that the Lock-Up Agreement and the Backstop Commitment Letter constitute an important milestone in the Group's effort to implement the specific transactions that will lower the leverage on the balance sheet, extend the maturity of the notes and improve its cash flows.

This will allow the Group to implement its business plan and take advantage of new appealing business opportunities, both in the Lottery as well as in the Sports Betting markets.

In view of the above, the Company proceeds to the necessary actions for the implementation of the proposed restructuring of the 2021 and 2024 Notes, while it remains available for discussions with other noteholders.

The Company will provide an update about its next steps in the near future.

The management estimated that the carrying value of cash and cash equivalents, trade and other receivables, trade and other payables approximates their fair value, primarily because of their short-term maturities.

Fair value hierarchy

The Group classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making these measurements. The levels of the fair value hierarchy are as follows:
 Level 1: official quoted prices (unadjusted) in markets with significant volume of transactions for similar assets or liabilities

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Group and the Company held on 31/3/2021 the following assets and liabilities measured at fair value:

GROUP	Fair Value 31/3/2021	Fair value hierarchy		
		Level 1	Level 2	Level 3

Valuation methods and assumptions

The fair value of the financial assets and liabilities is the amount at which the asset could be sold or the liability transferred in a current transaction between market participants, other than in a forced or liquidation sale.

The following methods and assumptions are used to estimate the fair values:

- Fair value of the quoted shares (classified as "equity instruments at fair value through other comprehensive income") derives from quoted market closing prices in active markets at the reporting date.
- Fair value of the unquoted shares (classified as "equity instruments at fair value through other comprehensive income") is estimated by reference to the current market value of another item substantially similar or using a DCF model. The valuation through the DCF model requires management to make certain assumptions about the model inputs, including forecast cash flows, the discount rate, credit risk and volatility. The probabilities of the various estimates within the range can be reasonably assessed and are used in management's estimate of fair value for these unquoted equity investments.
- Fair value of the quoted bonds is based on price quotations at the reporting date. The fair value of unquoted instruments, loans from banks and other financial liabilities, obligations under leases, as well as other non-current financial liabilities is estimated by discounting future cash flows using rates currently available for debt on similar terms, credit risk and remaining maturities.

- The Group uses derivative financial instruments such as forward currency contracts, interest rate swaps, currency swaps and other derivatives in order to hedge risks related to interest rates and foreign currency fluctuations. Such derivative financial instruments are measured at fair value at each reporting date. The fair value of these derivatives is measured mainly by reference of the market value and is verified by the financial institutions.

Description of significant unobservable inputs to valuation:

The fair value of unquoted shares (classified as "equity instruments at fair value through other comprehensive income") except that it is sensitive to a reasonably possible change in the forecast cash flows and the discount rate, is also sensitive to a reasonably possible change in growth rates. The valuation requires management to use unobservable inputs in the model, of which the most significant are disclosed in the tables below. The management regularly assesses a range of reasonably possible alternatives for those significant unobservable inputs and determines their impact on the total fair value.

Unquoted shares (classified as "equity instruments at fair value through other comprehensive income")

On 31/3/2021 and 31/12/2020 the Group did not hold any unquoted shares (classified as "Equity instruments valued at fair value through other comprehensive income").

2.21 CONTINGENT LIABILITIES, ASSETS AND COMMITMENTS

A. LITIGATION CASES

a. Against (a) publishing company "I. Sideris – Andreas Sideris Sons O.E.", (b) the Foundation of Economic and Industrial Researches (IOBE), (c) Mr. Theodosios Palaskas, Director of Research of IOBE, (d) the Kokkalis Foundation, and (e) INTRALOT, a lawsuit of Mr. Charalambos Kolymbalis, was filed on 8th March 2007 before the Multi-member Athens Court of First Instance. With his lawsuit, the plaintiff requests to be recognized as the sole creator of the project entitled "The financial consequences of sports in Greece" and his intellectual property right on this, and that the amount of €300.000 to be paid to him as monetary compensation for moral damages. Date of the hearing was set the 20th February 2008 when it was postponed for 4th March 2009 and then again for 24th February 2010; on that date the hearing of the case was cancelled due to strike of the judicial secretaries. New hearing date was scheduled the 23rd May 2012 when the case was heard and the decision no. 5724/2012 of the Athens Multi-member Court of First Instance was issued which dismissed the lawsuit. On 17 October 2015 an appeal was served to the company against the above decision, which was scheduled to be heard before the Athens Court of Appeals on 11 February 2016; on that date the hearing was postponed for 22 September 2016 due to lawyers strike when it was cancelled, while following a request of the plaintiff a new hearing date is set for 9 March 2017 when the case has been heard and a decision of the Court of Appeals was issued which ordered the repeat of the appeal's hearing. The date for the hearing was set for the 22nd of February 2018 when the case was heard and decision no. 3253/2018 of the Athens Court of Appeals was issued which rejected the appeal; until now, no application for cassation has been filed by the opponent.

b. In Colombia, INTRALOT, on 22nd July 2004, entered into an agreement with an entity called Empresa Territorial para la salud ("Etesa"), under which it was granted with the right to operate games of chance in Colombia. In accordance with terms of the abovementioned agreement, INTRALOT has submitted an application to initiate arbitration proceedings against Etesa requesting to be recognized that there has been a disruption to the economic balance of abovementioned agreement to the detriment of INTRALOT and for reasons not attributable to INTRALOT and that Etesa to be compelled to the modification of the financial terms of the agreement in the manner specified by INTRALOT as well as to pay damages to INTRALOT (including damages for loss of profit) or alternatively to terminate now the agreement with no liability to INTRALOT. The arbitration court adjudicated in favor of Etesa the amount of 23,6 billion Colombian pesos (approx. €5,5m). The application for annulment of the arbitration award filed by INTRALOT before the High Administrative Court was rejected. The Company filed a lawsuit before the Constitutional Court which was rejected. On 31 August 2016, an application was served to the Company requesting to render the abovementioned arbitration decision as executable in Greece which was heard before the Athens One-Member First Instance Court and the decision issued accepted it. The Company filed an appeal against this decision which was rejected by the Athens Court of Appeals. The Company filed, before the Supreme Court, a cassation appeal against the decision of the Athens Court of Appeals which was scheduled for hearing on 22 January 2021 when it was heard and the issue of the decision is pending and, in parallel, a request for suspension of execution which has been accepted by the Supreme Court which suspended the execution until the issue of the Supreme Court's decision. The Company has created relative provision in its financial statements part of which (€2,2m) has already been used for the payment to Etesa of a letter of guarantee amounting to 7.694.081.042 Colombian pesos.

c. Against the subsidiary Intralot Holdings International Ltd., a shareholder of LOTROM SA and against LOTROM SA, another shareholders of LOTROM SA, Mr. Petre Ion filed a lawsuit before the competent court of Bucharest requesting that Intralot Holdings International Ltd to be obliged to purchase his shares in LOTROM SA for €2.500.000 and that LOTROM SA to be obliged to register in the shareholders book such transfer. Following the hearing of 28th September 2010 a decision of the court was issued accepting the lawsuit of the plaintiff. Intralot Holdings International Ltd and LOTROM SA filed an appeal which was rejected. The abovementioned companies further filed a recourse before the Supreme Court which was heard and rejected. Mr. Petre Ion initiated an enforcement procedure of the above decision in Romania. The companies will exercise legal means against the enforcement procedure according to the provisions of the Romanian laws.

d. Mr. Petre Ion filed in Romania a lawsuit against Intralot Holdings International Ltd and LOTROM requesting to issue a decision to replace the share purchase contract of its shares in LOTROM SA for €2.500.000 (for which he had filed the above lawsuit) in order to oblige Intralot Holdings International Ltd a) to pay the amount of €400.000 as tax on the above price, b) to sign on the shareholders book for the transfer of the shares, c) to pay the price of the transfer and the legal costs. The Court of First Instance rejected Mr. Petre Ion's lawsuit. Mr. Petre Ion filed an appeal which was heard on 4 November 2014 and was partially accepted. The Company filed an appeal against this decision which was rejected. Following postponements, the case was heard on 10 June 2016 and the respective first instance decision was issued on 19 July 2016; the lawsuit against LOTROM was rejected while it was accepted partially in respect to its part filed against Intralot Holdings International Ltd., obligating the latter to pay the amount of the purchase and the legal expenses. Both Intralot Holdings International Ltd. and Mr. Petre Ion filed appeals against this decision which was heard and were rejected. The decision became final, while the application for cassation filed by Intralot Holdings International Ltd was rejected. While since 2018 there has been no action by the plaintiff, recently it was notified to Intralot Holdings International Ltd. that, following a unilateral petition of the plaintiff (ex parte procedure, i.e. without Intralot Holdings International Ltd. to be summoned and represented), a decision was issued by the Cypriot court appointing Bank of Cyprus as custodian of the amount of the account held by Intralot Holdings International Ltd. in that bank, as precautionary measure to ensure the payment of the claim of the plaintiff pursuant to the decision of the courts of Romania. This decision has been rendered enforceable in Cyprus by the local court in October 2020 also without any knowledge of Intralot Holdings International Ltd. since the same unilateral procedure ex parte had been followed by the plaintiff. After being informed on the above, Intralot Holdings International Ltd. has objected before the court of Cyprus and the case, following a postponement of 20 April 2021, was heard on 26 May 2021 and the issue of the decision is pending. Intralot Holdings International Ltd. considers that has valid grounds to deny the execution of the decision in Cyprus.

e. In Romania, the subsidiary Lotrom was notified on the beginning of an investigation conducted by the competent authorities against the state lottery CNLR, client of the Group, in relation to alleged occurrence of the crime of conducting games of chance without license and possible complicity to that, in relation to the operation of Video Lottery machines of CNLR; the Group was the technology provider of CNLR from 2003 to 2014. INTRALOT was notified, through rogatory procedure, that itself along with LOTROM and Intracom, are alleged to be accomplices of the state lottery CNLR to the abovementioned crimes. INTRALOT refuted with a memo duly submitted within February 2016, the above allegations.

Pursuant to the opinion of the local lawyers who are handling the case, at the end of February 2021 the accusation has fallen under the statute of limitation.

f. In August 2012, two British Virgin Island companies filed a Complaint in the United States Bankruptcy Court Southern District of Florida, Miami Division, against numerous defendants, including Supreme Ventures Limited ("SVL"), a publicly traded gaming company listed on the Jamaican Stock Exchange in which INTRALOT was holding until 10.10.2017 an indirect shareholding interest. Notably, as per SVL, the lawsuit is based on the same claims, towards third parties, initial shareholders and/or directors of SVL, or not, which were brought in, and were recently rejected by the Jamaican courts, first by the Supreme Court and then again by the Court of Appeals. INTRALOT is named as a «Relief Defendant» which means that INTRALOT is not alleged to have been part - directly or indirectly - of any wrongdoing, since the alleged by the plaintiffs acts are made before the acquisition of SVL's shares by INTRALOT through the Jamaican Stock Exchange. The lawsuit was rejected by the Court. The other party filed an appeal which is pending. Recently the litigant parties submitted to the Court a joint stipulation of dismissal of the case the Court's decision is expected.

g. On 30 July 2012, Intralot filed before the Athens Multi-member Court of First Instance a lawsuit against the company "Hellenic Organization of Horse Racing S.A." (ODIE) requesting the payment of the amount of €2.781.381,15 relating to system maintenance services provided but not paid. The case was heard on 6th May 2015 and a decision was issued accepting Intralot's lawsuit in full. ODIE filed an appeal against this decision which has been heard on 1 November 2018 before the Athens Court of Appeal which was rejected with the decision no. 3153/2019 of the Athens Court of Appeal. The decision has not been further appealed and, therefore, has become final and irrevocable.

Moreover, Intralot filed a recourse to the arbitration panel on 13 August 2012 against the same company ODIE requesting the payment of the amount of €9.551.527,34 relating to operational services of integrated system provided but not paid. The arbitration was concluded on 1st March 2013 and the arbitration decision no 27/2013 was issued vindicating Intralot and compelling ODIE to pay to Intralot the total amount requested (€9.551.527,34). In order to secure its claims, Intralot:

a) by virtue of the above arbitration decision, has already recorded on the mortgage books of the Land Registry Office of Kropia a mortgage on a land property of ODIE and specifically on the property where the Horse Racetrack of Athens in Markopoulo Attica is operating, and on the buildings thereupon, for an amount of €11.440.655,35.

b) by virtue of the decision no 2209/2014 of the Athens Single Member Court of First Instance, has already recorded on the mortgage books of the Land Registry Office of Kropia, a note of mortgage on the same real estate of ODIE for an amount of €9.481.486,11, which, following the issue of the above decision no. 3153/2019 of the Athens Court of Appeal, partially turned to a mortgage for the total amount adjudicated, i.e. for the amount of €2.781.381,15.

c) advanced the procedure of compulsory execution against ODIE in order to execute its claims.

Furthermore, on 20 March 2014, Intralot filed before the Athens Multi-member Court of First Instance a lawsuit against ODIE requesting the payment of the amount of €8.043.568,69 which is owed to it pursuant to the "Agreement of Maintenance and Operation of the System of the Mutual Betting on Horse Races of ODIE" dated 6 March 2012. The lawsuit was heard on 4 October 2017 and the decision issued accepted the lawsuit. ODIE filed an appeal which was rejected by the Athens Court of Appeals.

The confiscation on the above land property of ODIE in Markopoulo Attica imposed in the frame of the abovementioned procedure of compulsory execution against ODIE, was reversed with the consent of Intralot on 15 December 2015 in execution of the terms of the agreement dated 24 November 2015 between Intralot and ODIE which settled the payment of all above claims of Intralot. Pursuant to this agreement, ODIE assigned to Intralot 2/3 of the rent which it will receive from the lease agreement relating to that real estate to the company "Ippodromies SA". The payment of the assigned rent amounts has already been started.

INTRALOT filed before the Athens Multi Member Court of First Instance a lawsuit dated 8.3.2021 against ODIE (under liquidation), the company "Hellenic Republic Asset Development Fund SA" (HRADF) and the Greek State, requesting to be recognized that the above agreement is binding, in addition to ODIE, for HRADF and the Greek State, to oblige all defendants to pay to INTRALOT €487.079,32 and to be recognized that all defendants are obliged to pay to INTRALOT the total amount of €4.747.489,91, while HRADF and the Greek State the amount of €12.676.846,6. The case is pending.

h. A former officer of the Company filed a lawsuit before the Athens First Instance Court requesting to be recognized that the Company had to pay him the amount of €121.869,81 as non-paid wages. The decision issued partially accepted the lawsuit in relation to the amount of €80.685,42. Both parties have filed appeals which are on 24 November 2020. The decision issued by the Athens Court of Appeals accepts the appeal of the Company and totally rejects the appeal of the plaintiff. The decision is final. No petition for cassation has been notified to the Company.

i. In Cyprus, the National Betting Authority had suspended the Class A license of the company Royal Highgate Pcl Ltd. in which the Company has an indirect participation of approx. 35,08%, initially for a period of two months, alleging non-compliance of Royal Highgate Pcl Ltd. with specific terms of the license. Royal Highgate Pcl Ltd. considering that those requested by the National Betting Authority are beyond the provisions of the law, filed a recourse before the competent administrative court of Nicosia which was heard on 30 March 2018. The decision issued rejects the recourse for typical reasons. Royal Highgate Pcl Ltd. filed an appeal against this decision which has been heard, following postponement, on 8 March 2021 and the issue of the decision is pending. In parallel, Royal Highgate Pcl Ltd. has filed three more recourses against decisions of the National Betting Authority relating to the suspension of the license of Royal Highgate Pcl Ltd. which are all scheduled for hearing, following postponements, on 1 July 2021. National Betting Authority started the procedure for the revocation of the license of Royal Highgate Pcl Ltd. and the latter submitted its arguments on 30 November 2018 without any further actions from the National Betting Authority. On 31 December 2018, the contractual term of the license of Royal Highgate Pcl Ltd. expired.

j. In USA, in South Carolina State, class actions were filed against the local lottery South Carolina Education Lottery Commission and the subsidiary Intralot Inc. for breach of contract with the allegation that because of malfunctioning of the system there were winning tickets which were not paid and claiming a total compensation of approx. 35 million USD (€29,9 million). The local court accepted Intralot Inc.'s motions to dismiss in two lawsuits, holding that the plaintiffs were required to exhaust administrative remedies and failed to do so. The other side filed appeals against such decisions which are pending. The third similar lawsuit was rejected finally by the court. The Group's management, relying on local expert legal counsels' opinion, considers that the lawsuits have low probability of success. It is noted that with regards to such cases, the Group has a respective insurance coverage.

k. A former employee of the Company filed two lawsuits before the Athens First Instance Court requesting, with the first one, the payment of the amount of €133.179,47 for unpaid salaries and €150.000 as compensation for moral damages and, with the second one, the amount of €259.050 for overdue salaries calculated until 3 December 2019 and €150.000 as compensation for moral damages. The first lawsuit was heard on 28 February 2018 and the decision issued partially accepted the lawsuit in relation to the amount of €46.500,82. Both parties filed appeals against this decision which were heard on 22 September 2020 and the decision issued orders the re-hearing of the case after the submission of further evidences. The second lawsuit has been scheduled for hearing, following postponements, on 9 February 2022. The Company had made respective provisions to its financial statements.

l. On 1 April 2019, the Company filed a Request for Arbitration before the ICC International Court of Arbitration requesting to be declared that the defendant Sisal SpA has breached a contract signed with Intralot by using, in Morocco, terminals and the software embedded therein. The arbitration procedure is in progress.

m. In Morocco, "La Société de Gestion de la Loterie Nationale" ("SGLN") filed a lawsuit against the Company and its subsidiary Intralot Maroc claiming that it exercised unilaterally its option to transfer to it the equipment of Intralot which was used jointly by SGLN and the other local lottery "La Marocaine des Jeux et des Sports" ("MDJS") and, because of Intralot's denial, it suffered damages in the amount of MAD 18.000.000 (€1.692.922,64) which corresponds to the value of the equipment, while, additionally, it requests MAD 34.000.000 (€3.197.742,77) as loss of profit. It is also requesting the call of the letter of guarantee amounting to MAD 30.000.000 (€2.821.537,74). It is noted that according to the terms of the Intralot's contracts with the two lotteries SGLN & MDJS, the option for the transfer of the equipment as well as any call of the letters of guarantee can only be exercised with a joint request of both entities SGLN & MDJS. The case was scheduled to be heard, following postponements, on 7 June 2021.

n. In Malta a lawsuit was filed against the subsidiary Maltco Lotteries Ltd. and the company ATG, having its registered offices in Sweden, by a player of horse races betting games who is requesting the payment of the amount of approx. €1,5m as non-paid winnings. The specific betting game is conducted by the company ATG which refused the payment of the requested amount due to breach of the gaming rules by the player. The case has been scheduled for hearing, following postponement, on 14 September 2021.

Until 7/6/2021, apart from the legal issues for which a provision has been recognized, the Group Management estimates that the rest of the litigations will be finalized without a material effect on the Group's and the Company's financial position and results.

¹ The company INTRALOT FINANCE LUXEMBOURG S.A. have been merged with INTRALOT CAPITAL LUXEMBOURG S.A..

A tax audit for Bilyoner İnteraktif Hizmetler AS for the years 2018-2019 is in progress and at Inteltek Internet AS an audit was notified for the dividend's taxes of 2018. A tax audit for Intralot Germany GMBH is in progress for the year 2018, while in Intralot Iberia Holdings SA a VAT audit is in progress for 2016 and a limited audit of double taxation for years 2016-2018. In Lotrom S.A. the audit initiated by the local tax authorities with respect to financial activities for transactions subject to VAT for the period 2004-2014 was completed in the fourth quarter of 2016, but so far the conclusion report has not been yet notified to the company.

In the context of Law 2238/94 Art. 82 par. 5 and POL.1159/2011, the companies Betting Company SA and Intralot Interactive SA have received a tax certificate for the years 2014-2019 and Intralot Services SA for the years 2015-2018 and 1/1-22/7/2019 when the liquidation process started. In Intralot SA has received a tax certificate for the fiscal years 2014-2018, while the issuance of a tax certificate is pending for 2019. Last, a tax certificate is in progress for Intralot SA, Betting Company SA, Intralot Interactive SA, and Intralot Tech – Single Member SA for fiscal year 2020.

In Intralot SA during the tax audit for the year 2011, completed in 2013, were imposed taxes on accounting differences plus surcharges amounting to €3,9 million. The Company lodged an administrative appeal against the relevant control sheets resulting in a reduction of taxes to €3,34 million. The Company filed new appeals to the Greek Administrative Courts which did not justify the Company, which filed an appeal before the Council of State. The Company's management and its legal advisors estimate that there is a

significant probability that the appeal will thrive finally for the most part. The Company has formed sufficient provisions and has paid the whole amount of taxes.

In Intralot SA, after the completion of tax audit for 2013, as well as partial re-audit of 2011 and 2012, completed in 2019, taxes, VAT, fines, and surcharges of €15,7 million were imposed. The Company filed appeals against the relevant control sheets resulting in a reduction of taxes to €5,4 million. On 11.11.2020, the Company filed six appeals to the Athens Three-Member Administrative Court of Appeal against decisions of the Dispute Resolution Directorate of A.A.D.E. to the extent that they rejected the company's appeals, requesting their annulment. The total amount charged totals to €5,4 million. The trial of the cases has not yet been appointed. The management of the Company and its legal advisors estimate that the case has high success rates for the most part, in the highest court degree. The Company has already paid all the taxes and surcharges. Also, during the tax audit of the years 2014 & 2015, completed in 2020, taxes were charged for accounting differences plus surcharges of €353 thousand. The Company filed appeal against the relevant control sheets resulting in a reduction of taxes to €301 thousand. The Company filed appeal as at 31/5/2021 in the Administrative Courts against the decisions of the Dispute Resolution Directorate of A.A.D.E. to the extent that they rejected the Company's appeals, requesting their annulment. The total amount charged amounts to € 301 thousand. The Company's management and its legal advisors estimate that the case has high success rates for the most part, either at this stage or at the highest court level. The Company has already paid all the taxes and surcharges charged. The Company has formed sufficient relevant tax provisions amounting to €3,5 million.

Finally, a partial VAT audit is in process for the Company following a mandate for the period 1/2/2010-31/10/2012 upon request of assistance from Romanians to the Greek tax authorities on transactions with a Romanian company, as well as a partial tax audit for the fiscal years 2016 & 2017 after an audit mandate (November 2020).

2.22 COMPARABLE FIGURES

In the presented data of the previous years, there were limited adjustments/reclassifications for comparability purposes, with no significant impact on "Equity", "Sale Proceeds" and "Profit / (loss) after tax" of the Group and the Company.

2.23 APPLICATION OF IAS 29 "FINANCIAL REPORTING IN HYPERINFLATIONARY ECONOMIES"

The Group operates in Argentina through its two subsidiaries Tecno Accion SA and Tecno Accion Salta SA. Since the third quarter of 2018, the cumulative 3-year inflation index in Argentina has exceeded 100% and the country is now considered as a hyperinflationary economy for accounting purposes under IAS 29. The Group applied, for the first time in the nine months of 2018, IAS 29 and restated to current purchasing power in the financial statements (transactions and non-cash balances) of the above subsidiaries that use ARS as functional currency and present their financial statements at historical cost. The restatement was made using the (IPIM) Internal Index Wholesale Prices and applied pursuant to IAS 29, as if Argentina has always been a hyperinflationary economy.

The result (after the relevant consolidation eliminations) from the restatement of the non-cash assets, liabilities and transactions of the three months of 2021 following the application of IAS 29 amounted to

a profit of €91 thousand and was recorded in the Income Statement (line “Gain/(loss) on net monetary position”).

The conversion FX rates of the financial statements of the above subsidiaries were:

Statement of Financial Position:

	31/3/2021	31/12/2020	Change
EUR / ARS	108,00	102,85	5,0%

Income statement:

	AVG 1/1-31/3/2021	AVG 1/1-31/3/2020	Change
EUR / ARS ¹	108,00	70,87	52,4%

¹ The Income Statement of the three months of 2021 and 2020 of the Group's subsidiaries operating in Argentina was converted at the closing rate of 31/3/2021 and 31/3/2020 instead of the Avg. 1/1-31/3/2021 and Avg.1/1-31/3/2020 pursuant to IAS 21, paragraph 42a, for hyperinflationary economies.

2.24 SIGNIFICANT FLUCTUATIONS, RECLASSIFICATIONS & REVERSALS

Income Statement

Below are the most significant fluctuations in the Group's Income Statement for the period 1/1- 31/3/2021 compared to 1/1-31/3/2020:

Sale proceeds

Sale proceeds increased by €8,7million, or by 9,3%, from €93,3 million in the period 1/1-31/3/2020 to €102,0 million in the period 1/1-31/3/2021. This increase was mainly driven by the increased revenue in the segment “Management contracts”. Particularly, Sale proceeds increased by €6,8 million in USA (due to the strong growth in our Lottery operations, while further boosted by a significant jackpot in January 2021, as well as the launch of US Sports Betting contracts in Montana and Washington, D.C. in late 2020, despite the effect from the adverse USD movement and the lower merchandise sales in the current period), by €3,1 million in Turkey (mainly due to Bilyoner’s improved top line performance, favored by the strong growth of the online market), by €2,8 million in Malta (mainly due to the COVID-19 impact at the end of the first quarter of 2020), and by €0,9 million in Morocco (due to the COVID-19 impact in late 1Q20). At the same time, Sale proceeds decreased by €1,8 million in Brazil (mainly due to the FX currency translation), by €1,3 million in Netherlands (mainly due to the revised commercial terms which affected half of the first quarter of 2020 vs. full quarter effect in 2021), and by €1,1 million in Australia (mainly due to one-off merchandise sales in 1Q20, as well as the phasing-out of COVID-19 impact).

Gross Profit

Gross profit increased by €7,0 million, or by 36,6%, from €19,1 million in the period 1/1-31/3/2020 to €26,1 million in the period 1/1-31/3/2021. This increase is mainly driven from the increase in Sale proceeds as analyzed above.

Other Operating Income

Other operating income increased by €1,9 million, or 52,8%, from €3,6 million in the period 1/1-31/3/2020 to €5,5 million in the period 1/1-31/3/2021. This increase is mainly due to higher income equipment lease income and insurance indemnities in USA.

Selling Expenses

Selling expenses remained unchanged in the level of €6,6 million, despite the increase of Sale proceeds by 9,3%.

Administrative Expenses

Administrative expenses decreased by €2,3 million, or 13,1%, from €17,5 million in the period 1/1-31/3/2020 to €15,2 million in the period 1/1-31/3/2021. This decrease was primarily due to lower costs in Greece and USA.

Reorganization expenses

Reorganization expenses of €5,0 million in the period 1/1-31/3/2021 and €0,3 million in the period 1/1-31/3/2020 refer to advisors' fees regarding the 2021 and 2024 Bonds restructuring.

Other operating expenses

Other operating expenses increased by €0,5 million, from €0,5 million in the period 1/1-31/3/2020 to €1,0 million in the period 1/1-31/3/2021. This increase is mainly due to the higher impairments, write-offs, and doubtful provisions of receivables in 2021.

EBITDA

EBITDA increased by €8,7 million, or by 55,4%, from €15,7 million in the period 1/1-31/3/2020 to €24,4 million in the period 1/1-31/3/2021. This increase is mainly driven by the increase in Gross Profit and Other operating income, the decrease in Administrative expenses, and the increase in Reorganization expenses, as analyzed above.

EBITDA for the period 1/1-31/3/2021 on a constant currency basis, net of negative FX impact of €3,9 million, amounted to €28,3 million meaning an increase by 80,3% compared to the period 1/1-31/3/2020.

Income/(expenses) from participations and investments

Income/(expenses) from participations and investments came up to net income of €1,1 million in the period 1/1-31/3/2021 from net income of €0,8 million in the period 1/1-31/3/2020. This improvement is mainly due to the increased net gains from investments disposals in 2021.

Interest and Similar Expenses

Interest and similar expenses decreased by €0,5 million, or 3,9%, from €12,7 million in the period 1/1-31/3/2020 to €12,2 million in the period 1/1-31/3/2021. This decrease was primarily due to the lower interest expenses because of the repayment of loan agreements in USA in the fourth quarter of 2020, as well as the lower LG fees in 2021.

Interest and Related Income

Interest and related income decreased by €0,3 million, or 42,9% from €0,7 million in the period 1/1-31/3/2020 to €0,4 million in the period 1/1-31/3/2021. This decrease is primarily due to lower interest income on bank deposits and trade receivables.

Exchange Differences

The account "Exchange Differences" in the period 1/1-31/3/2021 of €3,7 million mainly refers to gains of approximately €0,1 million from valuation of cash balances in foreign currency other than the functional currency of each entity, gain of €0,8 million from reclassification of exchange differences reserves to Income Statement applying IFRS 10, as well as gain of approximately €2,8 million mainly from valuation

of commercial and borrowing liabilities (intercompany and non) in EUR that various abroad subsidiaries had as at 31/3/2021, with a different functional currency than the Group.

Profit / (loss) from equity method consolidations

Consolidation of associates and joint ventures through the equity method contributed profit of €0,1 million in the period 1/1-31/3/2021 compared to the losses of €0,5 million in the period 1/1-31/3/2020, mainly deriving by the Group's associates in Asia.

Taxes

Taxes in the period 1/1-31/3/2021 amounted to €2,1 million, versus €1,9 million in the period 1/1-31/3/2020. This increase was primarily due to the negative effect of deferred taxation.

Further analysis for the accounts Group Income Statement for the period 1/1-31/3/2021 compared to 1/1-31/3/2020 is provided in the ANNUAL Group Management report ("INTRALOT Group MANAGEMENT'S DISCUSSION & ANALYSIS") that has been posted in the website www.intralot.com.

Statement of Financial Position

No significant reclassifications were made to the Group's statement of financial position as of 31/3/2021 compared to the 31/12/2020.

2.25 CORONAVIRUS PANDEMIC (COVID-19) IMPACT

The economic fallout from COVID-19 continued to affect business activities in the beginning of 2021, and restrictions in most of the regions across the world were still enforced to cope with the spread of the pandemic. However, as vaccinations are progressing, governments have loosened COVID-19 measures after months of lockdowns, and gradually re-opened economic activities.

Gaming market in most of the regions where we operate has started to improve, while US Lottery market shows high degree of resilience. Based on the current performance of our operations in the first months of 2021 and the actions undertaken by most of our subsidiaries, no significant EBITDA impact is expected post 1Q21 from the pandemic. In any case, the scale and magnitude of COVID-19 impact for 2021 is continuously assessed and all containment measures assumed in 2020 remain intact and have been enhanced in order to absorb the potential impact in the financial results of 2021. The extent to which the COVID-19 pandemic may impact the financial performance in 2021 will depend on future development of the pandemic and the efficiency of the actions taken by the governments. This uncertainty will require us to continually adapt our strategy and initiatives and continuously assess the situation.

The health and safety of our team remains our top priority. With this in mind, we have immediately complied with all measures imposed by local governments and used technology in order to immediately enable a substantive majority of our personnel to work and collaborate remotely, without affecting the performance and quality standards of the Group.

2.26 SUBSEQUENT EVENTS

In May 2021 INTRALOT announced that its subsidiary in The Netherlands INTRALOT BENELUX BV, in co-operation with the Nederlandse Loterij, have completed the transition of the operator's full gaming portfolio enabled by the innovative LotosX platform. Lottery Draw-Based games, Scratch Cards and Passives, as well as the back-office operations are now live in The Netherlands through LotosX.

Additionally, INTRALOT has rolled out 4,300 Photon terminals along with its robust signage solution empowering further the retail channel of Nederlandse Loterij's Lottery games and Sports Betting offering. INTRALOT's Photon terminal, one of the most powerful and best-performing terminals, is a key value driver for the acceleration of the modernization of NLO.
